The Best Radio Station on Social Media: Nominees

Maximising the Digital Dividend

Kampala, July 11, 2014: Digital Impact Awards Africa, #DIAA, has today announced the nominations for "Best Radio Station on Social Media" for the inaugural awards ceremony to be held on 22 August 2014.

Radio in Uganda and Africa has over the last three decades been one of the major drivers of livelihoods of the people through its role as an active information delivery medium. With the advent of the internet web, mobile and social, radio stations that will continue to thrive will have to fully embrace digital media.

The "Best Radio Station on Social Media" category with 10 nominees out of over 150 radio stations in Uganda will award and recognize the radio station that has the best embracement of social media to provide information and infotainment. The Best Radio Station on Social Media nominees are

1. 104.1 Power FM
2. 106.5 DIGIDA FM
3. 88.2 Sanyu FM
4. 91.3 Capital FM
5. 93.3 KFM
6. 97FM Radiocity
7. CBS
8. Galaxy FM 100.2
9. HOT 100
10. XFM 94.8

As with other categories, winners of The Best Radio Station on Social Media will be decided by both the public and the jury.

About Cyberplc Limited

We regard cybersecurity not as an end unto itself. We instead see the cybersecurity controls deployed to protect information, people and physical assets as means to an end. The end of the technical, procedural, personnel and physical security controls is to help ensure that critical information infrastructure works reliably and continues to support business processes even under attack.

We are routinely commissioned to engineer and validate security controls around systems handling vast volumes of sensitive, "Classified" or "Protectively Marked" data. Thus, we help Governments, citizens, consumers, regulators and enterprises operating critical information infrastructure (CII) to gain confidence around the adequacy of controls in place to mitigate cyber threats and risks.

We understand the benefits and limits of technical tools because our core expertise lies in the technical Internet security domain. Therefore, to help you protect against threats to core business processes, we combine technical solutions with procedural, personnel and physical security controls. Our balanced approach helps you select the security controls that match the risks, needs and circumstances of your specific organisation.

About HiPipo (U) Limited (HiPipo.com)

HiPipo.com is a full service digital agency offering the following
